

ONAME O. BURLINGAME, MD, PHD CYTOPATHOLOGY

BOARD CERTIFICATIONS

- Anatomic & Clinical Pathology
- Cytopathology

FELLOWSHIP

- Cytopathology
Brigham and Women's Hospital
Boston, MA
- Gastrointestinal, Liver & Pancreas
Pathology
University of Miami Hospital and
Clinics and Jackson Memorial Hospital
Miami, FL

RESIDENCY

- Anatomic & Clinical Pathology
Brigham and Women's Hospital
Boston, MA

MEDICAL DEGREE

- Washington University School of
Medicine
St. Louis, MO

HOSPITAL AFFILIATIONS

- Gastroenterology Associates
- Washington Gastroenterology
- Overlake Hospital
- Olympic Medical Center
- Kootenai Health
- Providence Sacred Heart
- Providence Holy Family
- Valley Medical Center UW

PROFESSIONAL SOCIETIES & ASSOCIATIONS

- Rodger C. Haggitt Gastrointestinal
Pathology Society
- Pacific Northwest Society for
Pathologists
- Washington State Medical Association
- American Medical Association

Dr. Burlingame joined Incyte Diagnostics in 2022. She is board certified in anatomic and clinical pathology as well as cytopathology.

Dr. Burlingame graduated summa cum laude with degrees in Biology and Chemistry from Claremont McKenna College in Claremont, CA. Following her graduation, she worked as an instructor at Washington University School of Medicine, where she also obtained her medical degree.

She completed her residency in anatomic and clinical pathology at Brigham and Women's Hospital in Boston, MA. Following her residency, she completed fellowships in cytopathology and gastrointestinal, liver, and pancreas pathology. Dr. Burlingame spent time working as a course and laboratory instructor at Harvard Medical School.

Following the completion of her fellowships, Dr. Burlingame worked as a pathologist and medical laboratory director in Nashville, TN.

Dr. Burlingame worked as a Clinical Assistant Professor at the University of Washington's Pathology Department in Seattle, WA. She provided general surgical pathology diagnostics, FISH interpretation, intraoperative consultations, organized hospital conferences, and acted as a pathology liaison to multiple hospital committees.

Prior to joining Incyte, Dr. Burlingame served as a pathologist and laboratory director for Olympia Multi-Specialty Clinic. She greatly reduced the turn

around time for pathology results and significantly reduced error rates. She was also a histotechnology internship instructor.

Outside of medicine, Dr. Burlingame enjoys volunteering for Big Brothers Big Sisters of Puget Sound.

MANUSCRIPTS

- Oname O. Burlingame, Kesse O. Kesse, Stuart G. Silverman, and Edmund S. Ci bas, On-Site Adequacy Evaluations Performed by Cytotechnologists: Correlation with Final Cytopathology Reports of 5,241 Image-Guided Fine Needle Aspiration Biopsies, Cancer Cytopathology. 2011 Aug 31.
- Matthew Ndonwi, Oname O. Burlingame, Aaron S. Miller, Douglas M. Tollefsen, George J. Broze Jr. and Daniel E. Goldberg, Inhibition of Antithrombin by Plasmodium falciparum Histidine-Rich Protein 11, Blood. 117(23):6347-54, 2011 Jun 9.

ABSTRACTS AND PRESENTATIONS

- Oname O. Burlingame, M.D., Ph.D., Kesse O. Kesse, CT(ASCP), David M. Dorfman, M.D., Ph.D., and David W. Kindelberger, M.D., Non-Hodgkin Lymphoma Diagnosis by Concurrent Fine-needle Aspiration and Flow Cytometry: 123 Cases with Comparison to Histology, Abstract/Poster presentation, United States and Canadian Association of Pathology (USCAP) 100th Annual Meeting, 2011.
- Oname O. Burlingame, M.D., Ph.D., Kesse O. Kesse, CT(ASCP), Stuart G. Silverman, M.D., and Edmund S. Ci bas, M.D., On-Site Adequacy Evaluations Performed by Cytotechnologists: Correlation with Final Cytopathology Reports of 5,793 Image-Guided Fine Needle Aspiration Biopsies, Abstract, Cancer Cytopathology (2010), 118(55):384; Poster presentation, American Society of Cytopathology 58th Annual Scientific Meeting, 2010.
- Oname O. Burlingame, Dana R. Abendschein, Douglas M. Tollefsen, and Daniel E. Goldberg, Procoagulant Effects Of Malarial Histidine-Rich Proteins, Presentation, Molecular Parasitology Meeting, Woods Hole, MA, 2000.

- Oname O. Burlingame, Douglas M. Tollefsen, and Daniel E. Goldberg, Heparin Binding Of Malarial Histidine-Rich Proteins: Pro-Coagulant Effects, Presentation, Molecular Parasitology Meeting, Woods Hole, MA, 1999.
